

MR. RUMI'S WEDDING

September 2012 has been an important month in Fondmetal! On 23/09 at 13 o'clock has been celebrated the marriage of Mr. Rumi!
The bride and groom and their 100 guests spent their day among the celebrations at Malvezzi Castle, very closed to Brescia center.
During the ceremony, there was music for the "dancing" guests,

while, for fans of engines, including the groom, F1 Grand Prix of Singapore was broadcast on a delayed basis at 19:30.
The wonderful bridal ended at 23.00. But the conclusion of the ceremony represented the beginning of their new life together.
We wish them the best for their future!

THE PARIS MOTOR SHOW & BIFUEL NEWS

The self dual cars, with the prices of petrol and diesel to the stars, have returned topical, after living a reduction of interest at the end of eco-incentives in recent years. The Paris Motor Show has featured many innovations in this field: not only hybrid-, but also CNG cars are taking place.
Fiat Panda Natural Power guarantees the same luggage capacity of the petrol versions, thanks to the intelligent

positioning of the two tanks of gas. Mercedes-Benz B-Class NGD is equipped with a gasoline tank, particularly small: only 12 liters. Its three cylinders of methane ability allows you to get a range of about 500 km.
Audi A3 Sportback TCNG ensures an autonomy of 400 km natural gas. Not only methane! In Italy, the phenomenon of gas is not limited only

to CNG models, whose sales are, however, increased by 30.75% year on year in the first nine months of 2012. In our country, also LPG is strong: the increase in sales was as high as 136.4% on an annual basis, with the complicity of the promotional campaign.
In the age of technology increasingly advanced, bi-fuel represents an optimal solution to fight against the increasingly high prices of petrol and diesel!

DID YOU KNOW THAT?

Did you know that October is a special month for Marta?
04/10 was her Birthday and, especially this year, she will have a big party with family and friends because she celebrates 30 years!
She remembers very well all her birthday parties but the most funny was her 18th birthday party in a disco with her friends!
Marta has another special memory....
When she had 6 years old..her parents gave her a wonderful red bicycle!
She was so happy, she had always desired a red bicycle...
Well... that day she got on the saddle

with her cousin, she started pedaling and...no one knows why, nor how...she crashed into the gate of his neighbor and she broke all her teeth!
She started crying and she told to her father "Dad, it seems that I have sand in my mouth....", her dad took a look and he seen that there were the broken teeth!
Her father took her immediately to the hospital where they nursed her and put her some points.
Now...she and her cousin both, they have the scar on his chin and still laugh thinking about that day!
Another little and more recent October

memory is about job...because 4 years ago, on 17th October, she started her cooperation here in Fondmetal together with Fabrizio, after the experience of 5 years in another important wheels factory in Italy, always with him.

Marta 29+1 :-)

Marta and the patch

Her bike!

PHOTO OF THE MONTH

Italian Gas station in Rome:
Diesel at 1,95€
and fuel at 2,02€

QUOTE OF THE MONTH

An arrow can only be shot by pulling it backward. So when life is dragging you back with difficulties, it means that it's going to launch you into something great. So just focus, and keep aiming.

REFERRALS

"We like to work with, Marta, Tania and Fabrizio because When you are very happy and nice peoples to work with Especially Fabrizio's 'angels' hahaa"
Roger Levander Peugeot
