

CRISTIANO RONALDO & FM

The football player Cristiano Ronaldo purchased a set of wheels R15 in 22" for his brand new Porsche Panamera. We see here captured at the moment of choice with our importer Fondmetal -

Radius for Spain, Mr. Carlos José from Auto Imagen. The best Italian wheel for the best football player!

FIAT PANDA 4X4

Did you know that the actual best-selling car in Italy is the Fiat Panda? Recently the new version 4x4 has been presented: it is the preferred car by the Italians living on the Alps or by the hunters. The 4x4 is born with other three models: the Trekking, which has integral quality but only with front-wheel drive, the Natural Power TwinAir (with the

promising combination turbo and natural gas) and LPG EasyPower. In the case of Panda all-wheel drive, sizes are important because when the soil becomes hard also for the four-wheel drive, agility and lightness make the difference. But its best quality is really appreciate when the wheels touch the snow. The first gear is short, just to overcome

differences in height and climbs. During its 32 years life, the Fiat Panda has always had a 4x4 version and in this dark context, it continues to kick goals: it is the first time ever in the Panda nameplate's 32 years that it manages to hold the Italian pole position for that many months in a row, beating its previous record of 6 consecutive months from August 2008 to January 2009.

DID YOU KNOW THAT?

Did you know that Tania has a guinea pig? His name is Mr Chuck and he is 4 years old. Many people do not know this delicious pet: Tania describes guinea pig as a mix between a big hamster with long hair and a rabbit without ears. Tania loves Mr Chuck: she devotes so much attention to him that he has become too much spoiled!! Every day he eats kibbles, hay, 1 carrot, 3 or 4 cherry tomatoes, a piece of red or yellow pepper (he hates green pepper), a piece of fennel and.. salad as you want!!! He loves salad.. Every time Tania touches a plastic bag or opens her refrigerator, Mr Chuck starts to shout because he wants his

lovely salad. His screams are so shrill that it seems you are killing him! When Tania goes out, she has to give a few leaves of lettuce to Mr Chuck to shut him up: he knows her movements and when he understands that Tania is going to leave home, Mr Chuck starts to run along the perimeter of his cage, he clings to the bars of the cage biting them and, obviously, he screams! In his cage he seems to be so powerful and confident, but when Tania puts him on the floor, he becomes so shy that he is like a statue. Once a week Tania combs Mr Chuck's hair and once a month she washes him and cuts his hair (in particular during the summer). He is not very happy, in particular when she uses the blow dryer

with diffuser to dry him! After the bath Mr Chuck is very very angry.. so Tania has to give him a great quantity of salad or possibly a piece of melon to relax him. When Mr Chuck is nervous, he overturns the bowl of kibbles, and if Tania blames him, he fixes her beating his teeth! Please, do not think that a guinea pig is like a mouse or a good-for-nothing animal.. If you would like to have a pet, but you don't have a garden or you don't want that your animal friend constrains your freedom (especially during your holiday), a guinea pig will should be the best solution: Mr Chuck is affectionate, alert and intelligent.. and he has also his personal Facebook profile! Are you able to do all this with a goldfish?
