

## WINTER TIRES OBLIGATORY IN ITALY

Italy is in line with the regulations of other European Countries that, in case of snow, provide for the mandatory installation of snow tires from November 15th to April 15th. Alternatively people are obliged to have snow chains on board. The aim is to improve road safety and if the regulation is not respected, the sanction ranges from 80 to 318 Euro.

There are more than 250 Italian areas from North to South Italy that provide this obligation and there is no a single standard for the entire Country.

So Italians and foreigners on holiday in Italy, do not forget to mount the snow tires if you do not want to incur a fine!

## VIP ON THE GARDA LAKE

The Garda Lake is like a childhood dream: lemons, olives, white limestone, resembling a small sea! And one of its best point is Villa Cortine in Sirmione. George Clooney and Sebastian Vettel are already interested in buying one of the residences on the lake.

Ricky Martin recently purchased an estate, with a park, olive groves and lemon trees, near Desenzano.

The couple Pitt-Jolie have secured the tranquility of an ancient house in Valpolicella Villa Costanza.

The Grand Hotel Villa Feltrinelli in Gargnano is a regular destination of the characters of the star system, such as actor Richard Gere and former U.S. President Bill Clinton.

Verona is the city most frequented by celebrities, attracted by the charm of its history and its artistic heritage. Leonardo DiCaprio has bought an apartment of 350 square meters plus an additional 250 meters of terrace with views of the Arena.

And also the English girl Emma Watson has begun negotiations to purchase a property in the city. If you like to visit the Garda Lake next year, please let us know and we will send you our suggestions!

## DID YOU KNOW THAT ....?

Everybody knows that Fabrizio is travelling a lot... Not everybody knows that Fabrizio is driving a Very Special Space Ship.

His Audi Allroad 2003 is prepared by the same technicians that prepare James Bond's car and can face any Emergency.

The car is equipped with: 2 radar detectors and 3 GPS systems that speak in different languages, Special custom made Recaro seat, Automatic shift, 4 wheel driving, extra load tank, winter tyres, black Mafia windows, Aeronautic headphones, tow hub, snow chains, wheel fixing belts in the trunk, refrigerator, air shock absorbers on 4 heights, xenon adaptable lights, cruise control ..... and of course, other very secret weapons that cannot be revealed.

"When I drive to Vienna, my Customer Stefan comes down to say hallo to the car showing respect. Same is when I drive to Mr. Juerg in Zurich"

"This is the car that my father abandoned in his garage 5 years ago. I restored it and travelled the world. She is grateful to me and despite her 374.000 km runs great and bring me luck. This car spread terror to my competitors when I park it in the front of their customers."

"With the money I have spent to fix it, I could purchase an Aston Martin of the same type of my Friend James, however the comfort on my Allroad is something a Special Agent can't even imagine"

In this moment the Spaceship is in a work

shop to be fixed. By the end of the year it will reach 380.000 Km and within April 2013 will break the wall of 400.000km.
